Atelier Des Chefs

How about learning new skills, having fun with new people and eating a fantastically good lunch – all for £15? French cooking school Atelier Des Chefs' new concept is Cook Eat & Run, where you'll receive a cooking lesson and eat your finished product, all wrapped up in about 30 minutes. We chose to learn how to do the crisp fillet of sea bream with broad bean, pea and feta pesto (though the many classes include Chinese pork, glazed duck with passion fruit and orange and salmon tartare), and took our places at the Atelier's premises just off Oxford Street.

Chef Sati Weisz showed us our basics, plus the various techniques for making the dish efficiently. As someone who cooks a lot at home I expected all of this to be old news, but I discovered my cutting style was all wrong, and I've used the new way ever since. The finished dish was delicious – the fresh fish and clean tastes of the beans and peas went beautifully with the rich, creamy feta and potato, and it was all the tastier for having cooked it ourselves. How's that for a result? *Helenne Crawford*
